

LEXI LED PANEL

LEXI-120x30-W

The Lexi by VOLTRON® is a high-quality LED panel with uniform light distribution for intensive use in suspended ceilings. The frame is made completely of ALU and provides extra strength. Click-in OR modules in ALU ensure optimum cooling and extremely long light output retention. The Lexi can also be inserted in a surface-mounted frame (TFH-FRAMEBOX). The Vossloh-Schwabe driver can also be offered in DALI dimmable version - the driver (constant current) is included, the click-in OR modules are exclusive. TYPE LEXI-120x30-W - 25W/30W/35W/40W - L80 >50,000h - white - IP20 class. Always a 5-year guarantee. ENEC approved
